## Commercial Checking Accounts

We have created our business checking accounts to fit your business needs.

We invite you to look over the checking accounts and select the one that's right for you.

If you would like to ask any questions about our checking account options, Online Banking for businesses, or any of our products or services, just talk to one of our Customer Service Representatives.

\$100,000 or more	.50%	.50%

Fees may reduce earnings on account

Rates are effective as of 05/04/2023 and may change without notice Rates are based on the daily balance method

<sup>2</sup>The earnings credit will be calculated by applying the periodic rate of 1.000% to the investable balance in the account for each monthly statement cycle. If the amount of credit exceeds the amount of these fees, you will not receive any credit for the difference investable Balance: The investable balance is calculated by subtracting a 10% reserve requirement from the average available balance of the period. The earnings credit back percentage is then calculated on this amount and divided by the number of days in the period. The period we use is the monthly statement cycle.

<sup>3</sup>Subject to credit approval and some fees may apply
